I'm an UX/UI designer with experience in front-end web development. My strength and passion lie at the intersection between design and code to craft human-centered and accessible experiences.

Experience

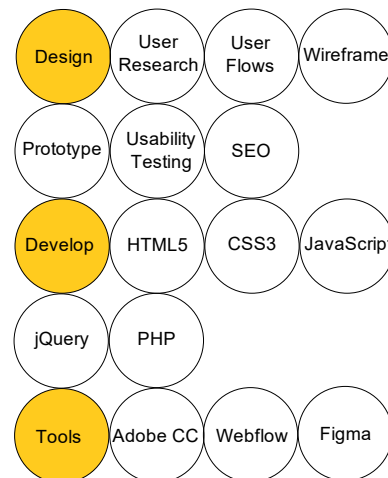

- *Web Developer, The Shorthorn, January 2020 – Current*
Collaborates with the newsroom to design and develop responsive content for theshorthorn.com and shorthornhousing.com. Completes wireframes, visual design, and develops assets and microsites for weekly publication.

Projects

- Redesign Concept for Forever Young Records: Responsive website, product catalogue, and database supported CMS. Completed user research, visual design, usability testing. Course project.
- Presidential Election Microsite: A site to visually break down the presidential election process, published on The Shorthorn News.

Additional Experience

- *Volunteer Photographer, Milestone Church, June 2017 – Current*
Photographs weekly services and events for website and social media.
- *Administrative Assistant, Halff, March 2017 – Current*
Supports an office of 100 engineers and architects. Works with IT to set up conferences. Assisted accounting with a software transfer.

Languages

- *French*
Conversational

Education

- *University of Texas at Arlington, 2016-2020*
Bachelor of Arts in Communication Technology, Bachelor of Arts in French, Minor in Psychology
